MEET BINITA

"Choosing International Institute of Business and Technology (IIBT) was the best decision of my life. I was enrolled for six weeks in the Academic English IV course. I am very happy to realise that this pathway course is the key factor to pursue my postgraduate course from ECU university. Even though in a short period of time, my teacher Mr. Maze Masri provided me with all the useful tips and strategies to improve my English communication skills in an academic setting.

The IIBT team is very highly experienced and well dedicated towards the students and the customer service is incredible. The teachers at IIBT are qualified, professional and friendly. They always provide quality education and an individualised service to the entire student group. The classroom includes modern technology for learning activities and improving skills. The cafeteria offers free unlimited tea and coffee with WiFi where students can use their time effectively having group discussions regarding their assessments during break time or after class.

Currently, I am doing my Masters of International Hospitality Management at Edith Cowan University, Joondalup. I am also working in a part time position in an Italian restaurant, Villa D'Este at West Perth City.

At last, I would like to highly recommend all the international students to choose IIBT for their career pathway which helps to prepare you for university courses to reach your goals."
